Drawings from the Web: To import, edit, and share your own drawings with the rest of the world. You can drag, drop, and zoom directly into your design using the web browser or URL. (video: 2:02 min.) Sending to Manufacturing: When you send your drawings to manufacturing, change order information is automatically entered into the drawing, saving you time and money. You can also add and manage what you want to include with the drawing, so the recipient can see what you're sending. (video: 2:00 min.) Enhanced 2D Drawing Output: See more details, surfaces, and options. Create and print in either 2 or 3D. (video: 2:42 min.) Enhanced Multiuser Collaboration: Multiuser collaboration is now faster and easier than ever. You can have unlimited simultaneous viewings and updates, keeping everyone informed on the design progress. Collaborators can also see their colleagues' annotations and changes, and every drawing has a unique digital signature that verifies who made the changes. (video: 3:30 min.) Manage your schedules and drawings: Automatically sync your drawing across devices. Stay on top of all your tasks, and manage all your tasks and drawings in one place. (video: 2:30 min.) In this issue, we explain the new features of AutoCAD 2023 and give an overview of our new value-added products. From new rendering and output options, through industry standard AutoCAD jobs, to CAD-based process modeling, there is no limit to what you can do with AutoCAD.
