The brand-new fantasy action RPG, the Elden Ring, is inspired by the story of the classic fantasy tale, The Lord of the Rings. The Land of the Elden is a vast world where open fields with a variety of situations and huge dungeons with complex and three-dimensional designs are seamlessly connected. As you explore, the joy of discovering unknown and overwhelming threats await you. You can also acquire and customize equipment that has been passed down from the legendary Elden Elves. Here in the Elden Ring, you, the first human who has ever sought to obtain the great power known as the Val'Illidar, can choose from more than 30 different characters and combine your weapon, armor, and magic to develop your character according to your play style. In addition to multiplayer, where you can directly connect with other players and travel together, the game supports a unique asynchronous online element that allows you to feel the presence of others. Ventura County Medical Center (VCMC) has agreed to stop performing abortions at the hospital after a Catholic group called the Center for Bio-Ethical Reforms (CBER) protested the decision. The hospital's board of directors voted on Monday to amend its pregnancy termination policy to include a moral or religious exemption that would allow hospital staff to obtain an "immediate referral" for an abortion outside of the VCMC. The amendment does not change the hospital's policy on abortions to agree with the California law that requires abortion providers to make two attempts to transfer women to another health facility that offers an abortion before the final step of ending a pregnancy. The hospital's policy complies with that California law. "VCMC is terminating all surgical abortion procedures on their facility," said Deborah Cass, president and CEO of VCMC, in a statement. "
