ENTHRALLING STORY ▼How can you expect to enjoy a game when you have no idea what's going on? ▼ The fragmented story won't let you do that. ▼An epic drama born from a myth ▼ A rich and complex story told in fragments ▼You can choose which direction to go and experience a multitude of stories ▼The deeper you go, the more feelings of empathy you get from the story There are a lot of prejudices and wrong perceptions about fantasy games. It's really hard to see them through. Fantasy games were treated as games about action or about monsters in the past. Not anymore. Although Fantasy games are often seen as, "You know, they have dragons and elves." or, "I think they're just an excuse for another dragon fighting game.," the truth is a lot more. We think of it as "First of all, we want to make a true fantasy game. That's a good reason. Because we want to create a fantasy world that appeals to the fans of fantasy. So, we made it a fantasy world." Fantasy games contain a lot of aspects which are a pure fantasy and other parts which are a pure action game. Even a non-fantasy world, unlike a normal action game, includes a fantasy setting, which you are able to experience with their own eyes. We have included both fantasy and action elements, and it lets you enjoy everything while you are having fun. In general, compared to other games, it's not as hard to enjoy Fantasy games. It's an enjoyable game, and it's a game which you can have fun in a great fantasy world. IS INNOVATIVE ▼ Game which goes with the theme of freedom. ▼ Exciting game which you can enjoy even in multiplayer. These days, an RPG is considered "an action game that is set in a fantasy world." and this is the reason that there are a lot of people who hesitate to play a fantasy game. We don't think this is the case. We feel that there is a genre called "RPG," and that's a genre which we consider ourselves to be. The story is actually a modernized version of an epic tale. A lot of people are interested in fairy tale and there are a lot of people who enjoy fantasy books. There is also a lot of people who want to play a game in the same world. We started our development
