I was fortunate enough to have participated in the games in 1994 in Lillehammer, Norway, as a member of the Canadian Curling Team. I was working on the CBC network at the time so I was covering it from the CBC Ottawa [...]Project Summary/Abstract The human brain has a remarkable ability to reorganize throughout the lifespan. You probably don't play it for the story, though the game really shines the light on what a great videogame story can be, and you'll be done in by the ending from as soon as you start playing. It's a fantastic game, made up of fun combat challenges, clever platforming, and challenging puzzle sections.
