injected material. An in vivo study was conducted to determine whether ultrasound may enhance the osteoinduction and/or the cement dissolution of biphasic calcium phosphate cement. Antibiotic cement was implanted into the proximal tibia of adult New Zealand white rabbits. Ultrasound was applied at 4 or 16 W/cm(2) for 3 min. The amount of material injected into the defect at 0.5, 1, 2, or 4 ml

they have been given a chance to meet the citizens they are supposed to serve. Montgomery County Sheriff's Office Lt. Clifford Johnson, of Troy's Warrant Squad, was recently named in a lawsuit alleging that Troy Police are using warrants improperly to find people and confiscate their property. A federal class-action lawsuit filed in July in federal court in Montgomery names Troy Police Chief Pete Leonidas and the city itself as defendants in the case. It alleges Troy Police are using the system of obtaining search warrants to keep people behind bars, rather than from their homes, as the city's charter limits them to.
