Brought to you by the same team that brought you Siralim, Siralim Ultimate is an exciting, challenging RPG where you'll have to make choices to determine the fate of the universe. There's no shortage of content in Siralim Ultimate. You can choose how your game is played, but it's almost never what you'd expect. You can befriend any god and become their Master, you can choose to remain evil, you can collaborate with other players to overthrow the god who rules your realm, and much, much more. In Siralim Ultimate, you can choose to play with friend or foe. But then again, who says you can't have both? Siralim Ultimate is the 2nd title in Siralim's DLC line of Tales of Xillia spin-offs. Players who purchase the DLC will receive four additional Character Classes at no extra cost, the Convenience attribute, three additional stories, four additional items, two additional weapons, and an entire new race of creatures - the Archais. You can choose to play through the main storyline or change up your gameplay with the Convenience attribute. The Convenience attribute allows you to skip much of the main story by completing a set number of missions with certain conditions. There are many different ways to play the game and many different methods to unlock the Convenience attribute. The game has a multitude of races, themes, and battles, so everyone will have their own unique way to play. Play with friends in the online co-op mode, or fight alone in a solo campaign. Play through the main story with a friend, or jump in later and start your adventure with the freedom of choice. No matter which version you choose, you can play every game with a friend, and you'll earn all of the content on your own. Even if you play solo, no one will pass you critical story events, giving you an excellent reason to play with a friend. Each of the 30 realms in Siralim Ultimate is ruled by a different god. Players can earn Favor with these gods to increase their Favor Rank. As your Favor Rank with each god increases, you'll be able to earn new items, creatures, decorations, and much more. Almost every gameplay system in Siralim Ultimate is meant to last players forever - or at least for a very, very long time. For example, your creatures do not have a

## **What's new in Windjammers 2:**

**(Nocturnal) This is a follow up to my presentation at the FIA Cross Country Off Road Championships, the 2019 Off Road Expo, and during the Racetrac demonstrations at the 2019 Toyota Land-speed races. Overview I was at the 2019 Desert World Cup Series at Orange County, California in**

**September. The temperatures were in the middle to upper 80's at night, and the track was very dry. It was a fun race for all classes, but I took a swim, even though this was planned and I chose to run an 1800-foot hump to make my drive as fun as possible. For me, a ride on a vehicle that can go as fast as being on water is exhilarating! It was a nail-biter for the winners, with the Nissan Z01R for GRC in 1st and the Toyota Tundra for 4WDC.Z1R in 2nd. It was also a nail-biter for a podium spot to 3rd and 4th with the #5 Lexus LSR-Gte field truck in 1st and 3rd and the #99 LSR-Gte truck in 2nd. I ended up with a 2nd, but there was a lot of teamwork. You can't bring the vehicle back to the crew area by yourself. I couldn't pass the trucks because I was too slow; so we let them get by us and helped them through. This is why it's important that we try the obstacle course first and run the speedway to set your time and collect data. We found out what the drive needed would be to get you back, then we looked at the numbers and checked out the obstacles. The tracking may take a bit longer since there are two numbers at the front and two at the back. We need to give you a choice between the two. The tracking is the best at mid to high speed points on the track. It's also a little better (I've seen videos of people) at the beach obstacles when there's sand for traction. Setup**

**The surprise this year was that I used my record-setting course. The new course has a lot of firsts; our course was nicknamed "legs", the obstacles were named "legs", and even some of the obstacles used in the the previous events are in the new course, such as the slalom**
