Explore the world at your own pace, and reach areas that would normally take considerable time to explore within a limited amount of time.
- Four Classes: Warrior, Cleric, Magician, and Assassin A Warrior is an extremely strong class that uses heavily armored weapons and can deal powerful elemental damage. A Cleric is a calm class that gives powerful healing magic. A Magician is a class of offensive magic, and Assassin is a powerful class that can deal critical damage from a distance.
- Vast World Explore the Lands Between, where you can freely move around in a vast world. In this world, dungeons that took hours to clear are connected to each other seamlessly, with very little loading screens in between.
- Dynamic Dungeon Design Dynamic and attractive dungeon design allows you to clear an area within one battle. The design is also changed frequently, and you'll be able to clear dungeon areas in a variety of ways.
- A New Myth of Earth, Sky, and Sea Earth, Sky, and Sea are the three elements that make up the ancient myths and legends. Various cards appear on the field, which grant power to the card-using character (clan members). The elemental cards vary based on the character's class, and the damage dealt to enemy troops is also determined by the elemental cards. In the limitless worlds and dungeons, the cards also change according to new myths and legends that will appear along the way.
- Dynamic Combos and Pause Mode Combos and combos allow you to freely select the right time to use attack skill combinations, which adds to the excitement of battles and combats. These attacks can also be performed in Pause Mode, which cancels out the enemy's actions.
- Enjoy the View of the World through the Map As you explore the world, you can see more detailed information and get a sense of being close to the people who are in the action.
- A variety of new rules for online play As you and your opponent attempt to defeat each other, you can also battle against the same opponent at a later time.

However, they now face a new threat in the form of Daichi Mikisugi. He is a coward armed with a pool cue and an unhealthy interest in 12-year-old Chad Hale, who so happens to be an orphan and the wielder of Kaneki's evil Neuromod. As such, Tsukishima sees it as a perfect opportunity to put an end to all his team's problems once and for all, and traps them in the middle of a plot that will allow him to dispose of them in a very bloody manner. How Daichi will intervene, will he join the fight against the team, and what will happen to the Ikkaku that is left of them before their immortal transformation is complete? If you suffer from a challenging medical condition, then you need to understand the risk that comes with the drugs you are prescribed. Some of the drugs tend to cause side effects when used alongside other drugs. Some side effects in patients can lead to very serious complications later on. But getting help to understand these side effects and risks can be a problem. Because the regulator that oversees healthcare in this country is dominated by drug manufacturers. However they still hold the purse strings and make a lot of money by unnecessarily frightening patients about drugs. With the new scope of inquiry in this area, risk will have to be clearly communicated to the public. Hopefully clinicians

won't shy away from giving patients information that they need in order to make better informed decisions about their own healthcare and treatment. From what has been reported, the government will make the proposed rules on this matter available for public comment by May, 2014. We have also reported on the fact that patients will ultimately be the ones who must bear the brunt of the Commission.
