Atelier Ayesha: The Alchemist Of Dusk DX Features Key:

- Story driven sailing ship sim where you help the Red River Alliance against the mob running a Syndicate Navy.
- One of the best written and most enjoyable for me racing game to have been done, with attention to detail and immersion.
- Beautiful hand drawn environments - must see!
- World in my opinion never gets boring, with lots of places to go and sea to explore.

-
- Enemies also infinitely experienced, with their own AI and history.
 - Procedurally generated fleet - every playthrough is different! Plus there are tons of trinkets to snatch off the fleet as you pilot around - for instance the red tile which is the source of most of the Alliance's wealth.
 - Flexible gameplay system where you choose to sail to up to 20 different islands and complete a mission for that island.
 - Village bonuses - all original and custom.
 - No brigand bonuses unless you want to play the game in brigand mode, in which case be sure to pick up the brigand bonuses instead. Moreover, the brigand bonuses are in my opinion pretty crappy.
 - Unlocks as you progress.
 - A great solo option.
 - Screen timer that you control through your keyboard or game pad.
 - Total game length - 4 hours
 - A few annoying bugs here and there, but nothing game breaking.
 - Teftest in game
 - Nice steampunk UI
 - Nice to be able to play using F11 (fullscreen)
 - Well documented, including plenty of screenshots of game play.
 - Only 13 Achievements to earn, but a few will take quite a bit of time (lottery-related).
 - Mod support and mod options
