The Veterans Health Administration (VHA) was established in the 1970s to provide

comprehensive health care to veterans who served in the armed forces. The VHA now provides care to over 10 million veterans. Among the major changes in the veterans healthcare system during this time period was the Federal commitment to the development of the most integrated, comprehensive health care delivery system in the world. Veterans are leaving military service with tremendous health needs. They are more likely than the general population to have multiple chronic diseases, as well as to have one or more mental and physical disorders. The VHA is required to deliver a broad array of primary

In fact, they were born on the same exact day. It turns out that you're not alone in being born on Dec. 26. The day is actually the second most common day of birth in the United States, according to a new report from the National Center for Health Statistics. What's more, the number of babies born on Christmas Eve is on the decline, going down by almost a third in just

the last 15 years. Back in 1999, nearly 21,000 babies were born on Christmas Eve, according to the latest data from the National Center for Health Statistics. But that number is down to just 14,035 babies this year. "It seems to be trending downward," said Darshak Sanghavi, a statistician with the health center. Nationally, the percentage of babies born on Christmas Day has also declined, from about 37 percent in 1999 to just under 32 percent today. [pullquote] That's a decrease for two reasons, according to the study's senior author. First, the number
