Grey Wizard is a fantasy inspired browser based strategy game set in a fantasy world. Magic users have existed for centuries, but have been hidden from the world. When Shadows consume a Wizard a catastrophe ensues. The Wizards have awoken to fight back against this evil. Play at your own pace. We have a challenging campaign and a range of different game modes. What You Get: 1 Premier Account (Game Character, Right to Download Game Updates, ability to buy Full Game and in game loot) Full Control over the character. PvP Campaign of 6 battles and 10 Total battles. PvP Encounter game mode. 3 Campaign tiers. Forum membership. All Forum and chat messages are stored. Use of unlocked cosmetics only available to Premier Members.

Unlocked fantasy items are available to Premier Members only. We have the ability to provide you with custom items in game. Feedback and suggestions are welcome. Enjoy!

Features: “Wizard” Spells: 8 different spells Custom spell slots Custom spells like invisibility, phasing and telekinesis.

In Game Tutorial: Wizard characters are smart and patient but also rather slow. Use spells to set up a defense, use your spells to deal with weaker targets, but don't throw

everything into a single spell like most players. Level system: You can level your Wizard up to level 30, level 30 is the highest level. Some Stats:

Movement Speed Damage Power - damage per game second Cast range

Armor Bonuses “Spell Point” system:

Spells are changed after gaining Spell Points. Leveling your spells costs Spell Points, as do items. Learn to use your

spells by actually learning and using them, not by spamming a spell over and over to gain some points for it. Shadow “Disease”: After a certain amount of time the Minotaurs will spawn to fight for their master. This effects all players - just a minor reminder to stay alive. Highly Customisable: Every spell can be set to passive or active, and has it’s own animations. A lot of options for customising the appearance of your character. A really good mix of the Classic style and the Newer style. The options are there for you to really fully customise your character. The game is also very resource friendly, no need for

GAMEPLAY: In this update we have introduced the Archetypes for Grey Wizards. Each Archetype has 5 different units, The Grey Wizard, The Grey Sorcerer and the Grey Warlock. ALSO, we have changed some of the Grey Wizard spells from direct damage to augment. ALSO we have reworked the Grey Wizard a bit, more about that later.. We have balanced the Grey Wizard Specs to be very powerful but have also kept them interesting. Something we have kept constant throughout ALL Grey Wizard units is that they are very homing, no matter what they are doing you know they are coming after you. In all the Grey Wizard Archetypes there are 3 different non-spell related options, The Grey Wizard's Soulguards, The Grey

Wizard's Berserkers and The Grey Wizard's Pylons. Also, we have introduced The Grey Wizard's Soulguard and The Grey Wizard's Berserkers in this update, but not the Grey Wizard's Pylons. What's new in Total War: WARHAMMER - Grey Wizard:

ry Guide Introduction This guide is for players who want to know how to play Grey Wizards in Total War: WARHAMMER, and to be able to hunt them down and have them pester you. While there are several different types of Grey Wizards in the game, they each present a similar scenario: if you progress through one Labyrinth, you cannot progress to the next. To be able to play Grey Wizards effectively, it is necessary to find and learn how to manipulate the runes as they are needed. The guide is designed with a common Grey Wizard, plus a Guide Reference Guide. The two together make the entire guide. For players who have not seen a Guide Reference Guide before, they can be found here. You can find the Lyneth Guid here. If you are a TYR & GYIR player, you may need to look at the Guard Guide and Use Guide, in order to really discover how to use their runes to create a winning strategy over a Grey Wizard. These runes are similar in function, but have different effects, depending on how the tutor was encountered. This allows players to find that gem they missed or experienced that is really useful, without completely frustrating them. In order to give a complete knowledge of these runes, they are divided into different types, listed at the end of this guide. This helps players to know what runes are found in each Labyrinth, who gives them, where they can be found, how to interact with them, and what they can contribute to different Qualities of Grey Wizards. Statistics Guardians Lyrandis's Wondrous Staff Convergence Level 1 Tyriel's Wand Trickster Level 1 Henchmen The great Malcholm Infernal Strain Level 2 Poylur's Fortunetelling Charms Brickworker Level 1 Factionless The Arbiter of the Pantheon Siege Guardians Lyrandis's Wondrous Staff How to encounter Guardian runes

The only way to encounter the Wonder Staff in Total War: WARHAMMER is through the following: A Dungeon Key is required to enter the Labyrinth of the Star. Lyrandis is the guardian of the first set of runes, found in Mark V Dungeon. Lyrandis can only be found in
