Everybody wants to make everything better for everybody else. Humans believe they can all be better when they're no longer a part of the same world, and when they're not beholden to the things that used to hold them back. But not all improvement is easily seen; not all change is for the better. No one, not even the people that think they know things best, can always see the way forward. And no matter what they think they want, people have a tendency to end up where they do not want to be. While progress is not always the right answer, some things really are better. And some things need to be left behind. THE CHANGELOG RELEASE DATA NEW FEATURES "EXCITE THE WORLD, LORD" SLASHING SYSTEM Chapter 1: Bosses, Repelling, and Proof of Existence FEATURE The new system allows characters to deal high-damage slashes when performing a special attack, and this has been made possible due to redesign of the weapon and armor system. ATTACKS Resounding With Slaughter Slash (aka "Superman Slash") Melee attack that can be performed by using the new Divine Hammer or other melee weapon. This is a great attack that is capable of dealing 1.5x to 2x the normal attack. Description: Resounding with Slaughter Slash inflicts 80% damage in one hit to the target(s). This attack will deal 1.5x to 2x the attack's regular damage and scales when the wielder has high level Equips equipped. Explosive Sharpening Slash Melee attack that can be performed by using a weapon with a sharpened edge. This is a great attack that is capable of dealing 1.5x to 2x the normal attack. Description: Explosive Sharpening Slash inflicts 80% damage in one hit to the target(s). This attack will deal 1.5x to 2x the attack's regular damage and scales when the

What's new in Elden Ring:

For details on all of the stories, classifications, class combinations, and skill paths, consult the "Class Description" portion of your Inner Card. Remember that creating a class combination will eliminate all of your current traits; therefore, creating a class combination with the traits you desire will be more difficult than other combinations. However, your level rank will increase as you gain experience. For example, as a level 30 character, you are more easily able to create a level 30, 30, 1 combination.

The following information is what is required to keep your Noble's Attribute as a Orichalc:

- Inner card 1 (Ego Trap) - Soul Memory
- Inner card 2 (Evasion Adept) - Agrin's Wisdom

Soul Memory and Agrin's Wisdom can be obtained by visiting the "How to Get Additional Inner Cards" section on the main page. In addition, Soul Memory can be obtained by killing Galressin, one of the seven Orichalcum Collectors. For more information on the Orichalcum Collectors, refer to the "Character Class Description" in the Appendix.

Chapter 2: Hero of Serendia

By completing the work assigned in the previous chapter, you entered the page of the legend. But it was not until you entered the "Adventurers Wanted" job that the participants "lost their lives." In this new world, you make a living by becoming a hero of Serendia, turning the continent into a world that only heroes like you can live in—a world where your actions are finally and truly worthy of being called heroic.

But the journey ahead of you is not a smooth one. The Dragon of Darkness, the most disturbing of all maggots, lingers in this terrible and perilous world. And as you set forth to take on the hordes of the forces of darkness that rule your world, the anxiety of finding your way through the maze of dangers will make every moment count.

"Set the course that you have to pursue." Although your tasks are simple, just as the name implies, you
