From the creators of Dragon Quest XI comes Disposable Heroes: Modern Gangs, a new roleplaying game set in modern Tokyo. Hire a crew of bad guys to push out rival mobs as your heroes. They'll let you know if they're being played by others. With modern gang scenarios, there are different types of gangs: Small time assassins, Murder, Casino, Family, and Gang Boss factions. Each has their own advantages, and you can't be in every faction. As a gang, you have your own turf, objectives, and gang members. But how bad are your enemies? In Disposable Heroes: Modern Gangs, you can hire skulks and independent heroes to attack rival factions at your discretion. Experience of the factions, talents, and equipment are customizable. A series of quests and activities in the game will teach you about gangs and the history of how they functioned in the modern day. Such quests include "The Stolen Heart" and "War of Skin Heads" where you can find artifacts and information to help you understand gang culture and divide and conquer tactics. This pack will include everything you need to start roleplaying, along with customizable templates and files for your gang, along with a full clean room to work from. Kanova is an interactive sketch tool that allows you to view your creations from any angle and in any scale, using a variety of painting and sculpting tools. published:14 Oct 2016 views:50755 ----- SUPERB USER REVIEW OF KANOVA ----- "I had a great time using this app. I used to have to work a lot in Autodesk, but this is so much more accessible and exciting to use. The Kanova VR interface is perfect for creating, and the 'Real Time Learn' function helps you go even deeper into the software. I appreciated that you could break the model into multiple layers, as often you needed to see elements from a different angle (off plane). To me, Kanova feels like a truly cross-

platform application, working flawlessly on VR hardware. It gives me great comfort that my models will be ready and available when my friends try the Kanova apps they have been waiting to play with.
