Klicz znajomych You can download "Trivia Crack" game on our website: Smfomy. Prove you are not a robot.Q: How do I get a list of all the methods of an object that start with a certain prefix? I'm doing some refactoring where I need to find all methods of class that start with a certain prefix:

```
import java.lang.reflect.Method;
import java.lang.reflect.Modifier; import
java.lang.reflect.InvocationTargetException; public
class Example { public static void main(String[]
args) throws Exception { try { /* * I'm finding a
method here that starts with "test" */ Class[]
classes = Example.class.getDeclaredClasses();
Class clazz = classes[0]; Method method =
clazz.getDeclaredMethod("test", "()V");
method.invoke(null); // Just needed to get things
running /* * Now I want to find all the methods
```

that start with "test" * What I really want is a set of
some kind of "CallerSensitive" * Collection */
Class[] methods = clazz.getMethods(); /*
