If you have seen this game before, you will know that this game is an addictive shooting game. However, unlike other games, it doesn't have a particular genre. This makes it unique amongst all other similar games. HOW TO DOWNLOAD: Download the APK file and locate the icon with a ♥ that looks like this (green diamond): Open the folder, where the.apk file is located. Open the shortcut to the file, where you find the green diamond in the image above. The process may vary depending on your phone model, and on your operating system. If you aren't sure how to get to that file, you can access it through the Download Manager app. Look at your phone's application folder and locate the icon where the green diamond looks like this: Open it and you'll find the shortcut to your APK file. Tap it to download the APK file. Once you have downloaded the APK file, you will find all the instructions on the home screen. INSTALLATION NOTES: You'll find the APK file on Google Play, or on the XDA Developers thread. Follow the instructions to install the game. Once you've done so, it's time to launch it. You should find a few cards on your home screen. HOW TO PLAY: You start the game by tapping the cards, on your home screen. Using your arrows, you can move your card. However, keep in mind that you need to tap the left or the right arrow to select the card. If you click a card, you will be playing it. In the middle of the game, you can use an "energizer" to power-up your card. Look at the app description, you'll find out about it. You will also find a few hints. In each round, you'll compete with your card against 5 other cards. You can invite as many people as you want. Your name is part of the game, and you can change your name in the settings. You can also change your appearance. While playing the game, you can chat to other players and earn points. You can win all kinds of stuff, and a lot of

them are hidden. Here is a list of the prizes and their locations: Helping Hands: Play a single round of the game and you
