Fly with your Dragon in-game by using this map! Just drop in and drop out of your Dragon. This map goes from the earth to outer space and will include command sites that the player can jump to and from. This will be easy to use as it will come with a tutorial for beginners and will also have a MFC which I will provide. The com.sss9.aquahacks.simulation.dragon.name.map.resource file contains the names of the maps that can be downloaded.. Please leave feedback if you have any suggestions, or find any errors. All titles should work as is, and no further configuration should be required to play the games if you have those titles already. The map uses only simple anims and laggs..
