Black Hawk Down (2001) Hindi title. When US Rangers and an elite Delta Force team try to kidnap two of a Somali warlord's underlings, their Black Hawk. Even though I don't have a habit of criticizing movies and I always try to be objective, I can't help but notice that the film doesn't even live up to the level of an American action movie. And this is despite the fact that the film is based on real events and there are no exaggerations in it, as, for example, in the film Olympus Has Fallen (2015). All of the events in the film did indeed take place during the Somali War, although the plot of the film has a much broader meaning.
