in total. It is the best KONTAKT guitar library for Blues. In the title "All in one", I call it as "All in one" for this KONTAKT library. It contains Two main parts: the Blues part and the Single Part. The required sample rate is 44.1 kHz for KONTAKT compatible. Thus, for users with KONTAKT 32 and KONTAKT 24, you can download this library in 32 or 24 Khz. The sound quality is pretty good. (7/10)
