

Hypertherm Pronest 2012 Rar 40

Join other attendees at the Hypertherm booth at KPC - North America's largest industrial equipment event. The standard version of the software includes access to Pronest, the industry leading CAD/CAM nesting software, and Camfix and Camwizard, the intuitive CAM software for the Hypertherm Mad Series CNC plasma cutting system. Confirm your reservation today and save yourself time and money by doing it through our exclusive Hypertherm dealer - Design to Go. Takeaway: What's the real takeaway Pronest 2012? It's unlimited software packed with material-specific embedded expertise, including separation values, feed rates, lead-in/out length and style, and advanced piercing strategies like moving pierce, edge pierce, thick pierce, all of which are applied automatically without programmer intervention. The end result is better part quality and enhanced productivity backed by exceptional technical support by Hypertherm. Pronest II, a powerful CAD/CAM nesting program, is designed for mechanized cutting in light industrial environments. Use the Mad Series CNC plasma cutting table or pvd mp cnc cutting tables. Fly cutting allows for faster laser cutting of thin material and the ability to pierce the material without slowing down the cutting head. DesignTab 6 integration allows customers who are cutting sheet metal to access fittings from Pronest. Drag rotation allows for quicker manual nesting, and better plate utilization, particularly when nesting around larger parts. Pronest II, your new desktop nesting solution to meet the needs of any fabricator, from large woodworking shops to light industrial to digital sign companies, is loaded with material-specific embedded expertise, including the cutting angles of profile-angle nested parts, separation values, feed rates, lead-in/out length and style, and advanced piercing strategies like moving pierce, edge pierce, thick pierce, all of which are applied automatically without programmer intervention.
