How to find 1 line in a file that starts with the '*' character? I need to create a file with its contents from a file over time. But I don't know how to do it. So I need to find a line in the file that begins with the '*' symbol (not with any specific symbol, but with any) and write it into a new file. I searched the internet, trying to find what the error is and what is the help. I haven't found anything suitable. Hope for help. Thank you. P.S
