
Hacking The IKEA TRADFRI LED Power Supply [Extra Quality]

The blinking indicator indicates that the maximum power of the LED driver has been exceeded. You can connect up to 10 TRADFRI LED drivers in one installation. This gives you complete flexibility in choosing the width of your lighting. When used as a light source for general lighting, up to 8 TRADFRI LED drivers can be connected vertically and 8 horizontally. For general lighting, one TRADFRI driver can be used. In this case, it allows you to get power up to 160 W.
