Moviesoup is an intuitive drawing application that enables you to create unique animations, like space adventures, animals moving or simple idea presentations. The app makes the animation process simple even for absolute beginners. Make amazing animations The provided interface is clean and easy-to-use, divided into the tools, color and sound panels, along with the working area. The play buttons are located in plain sight for quick access. Select the design format and adjust the colors When making a new project, you have the choice to use blank pages with standard or custom formats (e.g. 4:3, 16:9), choose a template from the library or an image from the computer. Using the color sliders, you can change the tints of each element, and make them more solid or transparent. Enter forms, narrations and audio tracks From the "Tools" tab, the app lets you insert geometrical shapes and new scenes, as well as move the camera, zoom in the design, slide, grow, spin, rotate, move and flip the scene. Plus, you can add audio sounds from the drive in one of the supported formats, like WAV, AU, SND, MID or RMF, and record your own voice, which helps narrate the story. Export the creation as

a GIF, QuickTime movie or photo series Once you're done with setting up the scene, you can proceed to record the actions, like moving or zooming into an object. You can preview the result by pressing the play button. If you are happy with how it turns out, you can save it on the PC as FTC file format or export it as an animated GIF, QuickTime clip or image sequence. Professional animation creator All in all, Moviesoup is a reliable application designed to offer an easy solution to create unique stories, presentations and animations using shapes, scenes, text and pictures. It also lets you export your work as a GIF, clip and image sequence.
